**Lot #71: Review Pool Plan**

The committee reviewed the pool plan.

A motion was made to approve the building of the pool, as long as the pool pump is placed within the setbacks and will be screened, and that the “segmental block wall” is not concrete block or solid block, and matches the siding of the house.

Motion was seconded.

A vote was taken and the motion passed unanimously.

**Lot #33: Review Addition Plan**

A motion was made to reject the plan if the addition violates the 10’ setback.

Motion was seconded and passed unanimously.

The meeting was adjourned at 6:30 pm.
